

**New health
services are
now available
in store**

Our pharmacists can now offer consultations to help you manage:

- a range of health conditions (e.g. reflux, ear infections, vomiting, hay fever, shingles and acne)
- hormonal contraception
- acute minor wound management
- weight management
- quitting smoking
- certain chronic conditions.

Consultation fees range between \$18.85–\$68.10 depending on the service provided.

Additional costs associated with the service include any items used during the consultation and as part of ongoing care (e.g. medications, pathology tests, bandages).

Availability of pilot services may vary between participating pharmacies and pharmacists
