Healthcare facility design

Queensland has a world-renowned capability in healthcare facility design with leading architects, design studios and project management companies having offices in Queensland.

Queensland has specific expertise in:

- healthcare facility planning (needs analysis and equipping)
- design services (architectural and engineering including children's hospitals, maternity hospitals and aged care facilities)
- project management (costs and standards)
- construction services and commissioning (delivery and hand over).

Healthcare facility design and delivery companies work with Queensland Health to ensure facility design meets patient and clinical needs.

Queensland has specific experience in merging facilities from numerous sites to one site and developing upgraded facilities with increased specialisation or levels of clinical delivery. Recent examples include the new Sunshine Coast and Gold Coast University hospitals which have increased their clinical service capability to reflect patient and clinical need. The following are examples of Queensland expertise in healthcare facility design.

Architectus

architectus.com.au

Architectus is a leading Australian design studio that brings together the experience of more than 350 architects, interior architects, urban designers and urban planners.

Architectus Brisbane, in association with Rice Daubney Architects, designed Australia's largest hospital development—the \$1.8 billion Sunshine Coast University Hospital, delivered as a public private partnership with healthcare providers, funders, clinicians and contractors. Architectus also designed the Queensland Emergency Operations Centre and the General Medical Training facility in Townsville which hosts health professionals from remote inland and coastal northern Queensland for one week training programs.

Conrad Gargett

conradgargett.com.au

Conrad Gargett is one of Australia's most experienced health architects. Working on public and private institutions, Conrad Gargett has delivered facilities for all areas of health from aged care and community centres to complex quaternary hospitals. Services include preparing health guidelines, feasibility studies, master planning and brief definition.

Conrad Gargett has worked on healthcare infrastructure projects in Australia and internationally including Queensland's Lady Cilento Children's Hospital, the Sunshine Coast University Hospital and the Day Surgery Unit at St Stephen's Hospital in Hervey Bay. They were also invited to participate in a design competition for Zhejiang Hospital in Hangzhou, China and were shortlisted in the final four entries.

PDT Architects

pdt.com.au

PDT Architects, celebrating their 80th year in 2018, are a multi-disciplinary practice offering architecture, interior design, landscape architecture, master-planning, urban design and sustainable design. PDT has been awarded national and international awards for delivery of healthcare projects, from local community health projects to large complex designs in collaboration with other architecture practices.

PDT has experience in the design of private aged care facilities for TriCare and Regis Aged Care and public hospitals including the Gold Coast University Hospital and a modular 2-bed regional health facility for Moura Community Hospital in Queensland. They specialise in evidence-based design in health architecture to improve the hospital environment by enhancing patient safety, eliminating environmental stressors that can impact staff, and reducing stress and promoting healing by making hospitals more pleasant, comfortable and supportive for patients and staff.

ThomsonAdsett

thomsonadsett.com

ThomsonAdsett is the world's largest company specialising in seniors living and has been working with the aged care industry for over thirty years. As a leading international architecture and design firm, they work across a range of sectors including Seniors Living, Aged Care, Healthcare, Commercial and Education. The company originated in Brisbane and works throughout Asia with offices throughout Australia, in Hong Kong and Jakarta. ThomsonAdsett also has strategic partnership arrangements in China, Singapore and the South Pacific and has completed over 1200 seniors living commissions.

In 2016, ThomsonAdsett came first place in the global elderly living sector on the renowned World Architecture 100 list. The list, published by UK architectural news publication Building Design, ranked the world's largest architectural practices of 2017 by sector and industry after surveying more than 1400 practices around the globe.

Partner with us

Queensland Health, through the Health Innovation, Investment and Research Office, is looking for opportunities to collaborate with government agencies, entrepreneurs, industry and research institutions to expand our vibrant health sector to improve the wellbeing and healthcare of Queenslanders.
