

# Could it be **SEPSIS?**

Been crook and not getting better? Getting worse?

Do you have any of these symptoms?

Short or fast  
breath

Feeling sick in  
the stomach

Heart beating  
too fast

Feeling really  
cold

Runny poo

Feeling really hot

Not much pee

Feeling really tired  
or confused

Pain or 'feeling  
worse than ever'

**Act quickly! Go to hospital NOW!**
