

QACIR Cases for Wacol Prisons 1 July 2022 to 1 July 2023

Source: Reporting QACIR database, and OBIP_EDW MPDS Dimension as at 20/03/2024

Reporting Period: 1/7/2022 - 01/7/2023 (23:59:59)

QACIR must have location name meeting following criteria:

Scene Location name like 'PRISON' or 'JAIL' or 'GAOL' or 'CORRECT%' or 'REMAND' or 'WOLSTON MENS' or 'MEN CORREC'

AND scene suburb must be like 'WACOL'

AND specifically excluding 'WACOL MINIMUM SECURITY HOUSING' (which would otherwise be included as correctional facility).

Patient Status Code begins with PT:

PTNTRTTPT	Patient Not Treated But Transported
PTREFTPT	Refused Transport Against Officer Advice
PTTRTNTPT	Patient Treated Not Transported
PTTRTTPT	Patient Treated and Transported

Timeslot based on d_received timestamp (call received)

Please note:

That multiple responses per Incident indicate more than one patient was attended to by QAS in that case. The query methodology for this extract differs from that used answer RTI 2804 in 2015 as it was based upon a superseded EARF reporting database. As this RTI specifically requests 'reason for call-out (broad category)', this is based upon the MPDS code determined at time of call, not the clinicians assessment or diagnosis.

Data depends on accurate entry of location data at source. See 'unique scene locations' tab for full list of scene locations retrieved from query.

Data was extracted from DARF database on 20/03/2024 to comply with an RTI application (RTI 5510/23)

Please note:

MPDS determinant indicates the assessed reason for the Triple Zero (000) call.

Incidents coded as MATA1, MATA2, and MATA3 indicates that the request for QAS assistance came from a health care worker.

Data does not differentiate between a call for assistance made for a prisoner, versus another individual who may have required assistance at the facility.

The average cost of sending an ambulance to an incident for the period 1 July 2022 to 1 July 2023 is \$1,411. This is based on the Regulated fee charged by the QAS for ambulance transports.

DOH DISCLOSURE LOG COPY

Count of incidents and responses by month, priority, time of day, transported status, MPDS							
Note: Month of 2023-07 includes only data for 1 July 2023; one day of the month.							
Incident Month (YYYY-MM)	Priority	Received Time Slot	Transported (Yes/No)	MPDS Determinant	Primary Complaint	Number of Incidents	Number of Responses
2022-07	1	0000-0559	Yes	Clammy or cold sweats	Not documented	1	1
2022-07	1	0000-0559	Yes	MATA2	Not documented	1	1
