Critical Infrastructure	<ul style="list-style-type: none"> ICT Major Incident Notification – Cairns OpCen – Far Northern Region – Community in Isolation – Hope Vale Telstra advise of a transmission failure at Cooktown exchange. Up to 61 fixed line telephony and 50 ADSL customers located at Cooktown are experiencing a loss of voice/data service. There is also a loss of mobile coverage at Hope Vale. Increased risk to public safety due to the limited channels available to communicate in an emergency. Hope Vale is a town within the Aboriginal Shire of Hope Vale and a coastal locality split between the Aboriginal Shire of Hope Vale and the Shire of Cook, in Queensland. In the 2016 census, the locality of Hope Vale had a population of 1,015 people. The area is serviced by the PHC located in Hopevale. In the last 12 months there have been 176 cases requesting services. A Telstra technician is being fast tracked to Hope Vale Radio Tower. The Cairns regional OpCen is responsible for the co-ordination of calls for service within the impacted area. They are liaising with QAS, QPS, QFES and QH and the checklists are being undertaken by the OCS. Additional information will be supplied from Telstra to MIM when they have an update on the issue and expected time to restore full services.

- Weather intelligence from the Bureau of Meteorology (BoM) has been reviewed, with no significant weather impacts expected over the next several days.

- ICT Major Incident Notification – Cairns OpCen – Far Northern Region – Community in Isolation – Hope Vale**
Telstra advise of a transmission failure at Cooktown exchange. Up to 61 fixed line telephony and 50 ADSL customers located at Cooktown are experiencing a loss of voice/data service. There is also a loss of mobile coverage at Hope Vale. Increased risk to public safety due to the limited channels available to communicate in an emergency. Hope Vale is a town within the Aboriginal Shire of Hope Vale and a coastal locality split between the Aboriginal Shire of Hope Vale and the Shire of Cook, in Queensland. In the 2016 census, the locality of Hope Vale had a population of 1,015 people. The area is serviced by the PHC located in Hopevale. In the last 12 months there have been 176 cases requesting services. The Cairns regional OpCen is responsible for the co-ordination of calls for service within the impacted area. They are liaising with QAS, QPS, QFES and QH and the checklists are being undertaken by the OCS.
Update: Telstra advise that the onsite technician has identified damaged section is near the Endeavour River and suspects it's buried cable. It is unsafe to work in this location overnight due to crocodiles in the area. A Telstra excavator and another fibre technician from Cairns will attend in the morning.

- Weather intelligence from the Bureau of Meteorology (BoM) has been reviewed, with no significant weather impacts expected over the next several days.

Critical Infrastructure

- ICT Major Incident Notification – Cairns OpCen – Far Northern Region – Community in Isolation – Hope Vale**
Telstra advise of a transmission failure at Cooktown exchange. Up to 61 fixed line telephony and 50 ADSL customers located at Cooktown are experiencing a loss of voice/data service. There is also a loss of mobile coverage at Hope Vale. Increased risk to public safety due to the limited channels available to communicate in an emergency. Hope Vale is a town within the Aboriginal Shire of Hope Vale and a coastal locality split between the Aboriginal Shire of Hope Vale and the Shire of Cook, in Queensland. In the 2016 census, the locality of Hope Vale had a population of 1,015 people. The area is serviced by the PHC located in Hopevale. In the last 12 months there have been 176 cases requesting services. The Cairns regional OpCen is responsible for the co-ordination of calls for service within the impacted area. They are liaising with QAS, QPS, QFES and QH and the checklists are being undertaken by the OCS.
Update: Telstra advise that the onsite technician has identified damaged section is near the Endeavour River and is working to install a replacement.

- **ICT Major Incident Notification – Cairns OpCen – Far Northern Region – Community in Isolation – Hope Vale - Restored**
Telstra advise of a transmission failure at Cooktown exchange. Up to 61 fixed line telephony and 50 ADSL customers located at Cooktown are experiencing a loss of voice/data service. There is also a loss of mobile coverage at Hope Vale. Increased risk to public safety due to the limited channels available to communicate in an emergency. Hope Vale is a town within the Aboriginal Shire of Hope Vale and a coastal locality split between the Aboriginal Shire of Hope Vale and the Shire of Cook, in Queensland. In the 2016 census, the locality of Hope Vale had a population of 1,015 people. The area is serviced by the PHC located in Hopevale. In the last 12 months there have been 176 cases requesting services. The Cairns regional OpCen is responsible for the co-ordination of calls for service within the impacted area. They are liaising with QAS, QPS, QFES and QH and the checklists are being undertaken by the OCS.
Restored - Telstra advised a damaged fibre was identified as the cause of the CII. A replacement cable was installed restoring services. Telstra advises as of 1812 hrs, 06.06.2024, the CII had been restored.
- **ICT Major Incident Notification – Rockhampton OpCen – Central Region - Multiple Radio Channels Experiencing Interference**
QAS Rockhampton OpCen is reporting that several radio channels out west (U13, V29 & V36) are experiencing static interference. Rockhampton OCS advises the static is quite minor and not causing any communication issues. If backup communications are required, mobile phones and SATPTT will be utilised as a contingency. RES Rockhampton have been engaged and are investigating.

Critical Infrastructure	<ul style="list-style-type: none"> ICT Major Incident Notification – Rockhampton OpCen – Central Region - Multiple Radio Channels Experiencing Interference -Restored QAS Rockhampton OpCen is reporting that several radio channels out west (U13, V29 & V36) are experiencing static interference. Rockhampton OCS advises the static is quite minor and not causing any communication issues. If backup communications are required, mobile phones and SATPTT will be utilised as a contingency. RES Rockhampton have been engaged and are investigating. Restored: RES Rockhampton have observed no further interference with the radio channels originally reported. Rockhampton OpCen confirm service stability.

Critical Infrastructure

- **ICT Major Incident Notification – Sunshine Coast & Wide Bay Region - Hervey Bay & Childers Radio Disruption - Restored**
At 1337 hrs FSG was notified by Maroochydore OpCen that two of 705 radio communications had been lost with crews at Hervey Bay and Childers. Maroochydore OpCen transitioned to BCP backup link to maintain communications before reverting to primary radio link at 1345 hrs with radios confirmed working as per normal with communications restored. Investigations identified a network disruption experienced at Hervey Bay Ambulance Station between 1337 hrs and 1345 hrs, with no further recurrences.
